the Sun!

SOLAR F.I.T. SYSTEM™

FAST INSTALL TRACK

The SOLAR F.I.T. SYSTEM is a simple, flexible and intelligent solution for installers of large PV systems.

SOLAR CONTRACTORS the SOLAR F.I.T. SYSTEM (*Fast Install Track*) provides significant advantages in the field *and* on your bottom line. Specifying **F.I.T.** on your next job allows you to reduce panel install labor and complete the project much faster. **F.I.T.** also helps you solve OSHA compliance issues.

LIFT

SET

SLIDE

TIGHTEN

SPEED **F.I.T.**'s innovative design allows PV panels to be installed from below, drastically reducing panel install and layout times.

SAFETY **F.I.T.** eliminates many OSHA safety concerns associated with typical top-mount systems

SAVINGS **F.I.T.** significantly cuts panel installation time. **F.I.T.** accommodates any size PV panel*. PV panels can be installed landscape or portrait. (portrait orientation can reduce purlin (material) cost by up to 40%).

FLEXIBILITY No need to remove entire arrays to get to one panel. **F.I.T.**'s unique concept allows for easy system maintenance. Any PV panels can be removed and replaced in just minutes.
