M Bar C Renewables

Constructing a renewable future.

M Bar C Construction's Renewable Energy division was created to meet the increasing demand for sustainable energy. We specialize in solar carport, rooftop, and ground mount design, installation, and O&M services.

We offer a variety of custom energy solutions designed to meet your specific needs, from Solar PV to Advanced Energy Storage.

Our process has been the key to success for small and large scale projects, providing safe working environments, financial stability, and honoring our commitment to building relationships.

We pride ourselves on efficient project management, strategic coordination with key stakeholders, and timely delivery.

Services

- Solar: Carports and Shade Structures, Rooftops, and Ground Mounts
- Advanced Energy Systems: Demand Response and Battery Backup
- Ongoing Services: Commissioning, Troubleshooting and O&M

Who We Are

M Bar C is a recognized world-class solar contractor dedicated to superior construction practices, innovative product development, and the highest safety standards.

We have completed multiple showpiece projects, delivering unconventional, high-quality solutions to the most demanding industry challenges.

Why choose us?

Safe: We are trained to handle the latest materials and equipment and maintain Cal/OSHA compliance.

Reliable: We maintain the highest standards in design, materials, construction and project management.

Principled: We are built on the values of respect, integrity and a positive customer experience.

Detailed: We are keenly aware of every aspect for each project, from planning to clean-up.

Efficient: Our extensive and diverse experience maximizes productivity without cutting corners.

Communicative: We establish effective open channels of communication for every project.

Our Process

Partnering with you, from start to finish.

- 1. EVALUATE AVAILABLE SPACE:** Our team is trained to design within space constraints and make the best use of available real estate. Ideal locations are rooftops, parking areas, and open areas of flat land.
- 2. ASSESS POWER CONSUMPTION:** Before we design your system, we perform an in-depth analysis of your historical electricity consumption. Time of use, utility rates, and weather patterns are considered when determining financial savings.
- 3. IDENTIFY FINANCING OPTIONS:** We partner with long-standing, experienced financing entities to help you finance your system. There are solutions for everyone. Our goal is to make sure our clients are treated like part of the M Bar C family.

Our Values

Family

We are a company based on family values that respect one another, our clients, and our vendors. We are loyal to our relationships that eventually build into friendships. The foundation of our company is based on caring for our family members by providing a safe work environment, financial stability, and honoring our relationships in times of need.

Integrity

We define integrity as always doing what is right even in tough situations. We aspire to be honest and do what is best for our family members and clients. We always uphold the company values and ethics.

Commitment

We have a commitment to perform and excel, with a drive to succeed through hard work, regardless if the situation is positive or negative. Our clients can depend on us to get the job done safely and effectively. We do not quit when the going gets tough. We strive to go above and beyond what is expected.

Quality

Our reputation is built from quality. We build the best product, provide the best service and deliver what is promised. Our work ethic and end product are what make our family members proud. We take ownership in our work and performance. We stand behind our reputation of reliability, performance, and quality with pride. We set the bar higher than the industry standard.

Growth

As the company continues to grow we keep an open mind and are willing to accept and embrace change. Staying humble and never becoming complacent allows us to find and learn about new opportunities and share in the knowledge to allow for safe, stable growth.

Leadership

We lead by example. We take charge of situations and hold ourselves accountable for all actions, good or bad. We teach and explain why, instead of dictating, as a result, family members have a better understanding of our product and can take ownership of what they do for the company.

Our Products

Solar Carports

M Bar C Construction provides dependable solar carport solutions for general contractors, project developers, corporate divisions, and government entities working on medium to large scale projects.

- T Structure Carports
- Semi & Full Cantilever (OT & L Designs)
- Two Post Carports
- Custom Designs
- DSA Approved
- Heavy Gauge Steel Structures

Rooftops

In an effort to provide our clients with the highest return on investment, our teams will consider the best solution to fit your needs. Roof mounted solar utilize existing building structures and electrical systems to help drive down costs.

Looking for something different?

We are proud to offer many other structure solutions and custom designs.

Parking Garage Canopies

M Bar C Construction's design and installation teams have mastered the process. We have a history of experience navigating the intricacies of parking garage carport engineering and installations.

- T & OT Structure Carports
- Full-Coverage/Long Span

Full Coverage Parking Structures

Full-coverage parking structure canopies allow facilities to benefit from high density solar energy production. This efficient option is available for many ground-level carports and parking garage applications, providing greater solar production per square foot.

Company Profile

Constructing a renewable future

Our professional reputation is the dedication to superior, innovative products, safe quality production, recognizable showpieces, and unconventional solutions to industry challenges.

Our team is a family, and our priority is to strengthen our business relationships through integrity and unparalleled service.

General Overview

Incorporated: September 2005 (born from M Bar C Carports founded in 1975)

Bonding Capacity: \$15,000,000.00 (single)/\$40,000,000.00 (aggregate)

Safety: Full compliance with OSHA. Crews are trained and certified for all types of installations, procedures, safety, and equipment operation.

Number of Employees: Approximately 125

Specializing in: Solar Structures (Carports, Canopies, Atop Parking Garages, DSA), Rooftop, Ground Mounts, Advanced Energy Systems, Design/Build Projects, Large Projects, On-Time Completion, Maximum Aesthetic Appeal.

Our Team

Jason Ianni | President & CEO

Jason fulfills the leadership role with more than two decades of experience in the construction industry. After obtaining a bachelor's degree in Business Administration, and California Contractors License, he founded M Bar C Construction in 2005. While serving as President, his dedication to the success of the company garnered the 2013 California Small Businessman of the Year Award.

Erik Krivokopich | Vice President of Business Development

With almost two decades of experience in construction operations, estimating, and sales, Erik brings high-level knowledge and a unique dynamic to customer service. Erik has a BA in Business Administration from Washington State University. He is responsible for leading and supporting the Sales and Marketing team, project value engineering, risk assessment, and client development.

Michael Patterson | Vice President of Operations

Mike is primarily responsible for field operations in addition to preconstruction support, project engineering and project management. Integrating all departments in support of field operations is a critical function of his position. Mike has four decades of construction experience, including almost two decades in executive management.

Ken Riley | Director of Renewable Energy

Ken has been entrenched in the Renewables industry for over 10 years and has a strong background in project development and construction management. Ken has over 20 years in the construction industry and has managed and developed over \$100 Million in construction projects and over 15 MW of installed solar. With support from the Structural division he oversees development, design, permitting, and completion of renewable EPC projects for our Commercial, Federal, and Municipal clients.

Safety

Our training, construction practices, and policies are of the highest standards.

It is the policy of M Bar C Construction to provide a safe and healthy work environment for all employees, our customers, and vendors. We are committed to abiding by all federal, state, and local regulations as they pertain to our operations. Our safety program is designed to train our employees to follow the highest standard safety practices.

M Bar C Construction's never-ceasing commitment to safety allows our team to provide the best quality and most productive service in our industry. It is our goal to eliminate accidents and injuries.

M Bar C Construction's safety training, practices, and policies are our top priority. To maintain these standards, our team works hand in hand with industry-recognized safety management programs. This collaboration ensures safety process accountability and regular job site audits.

Project Spotlights

Colleges & Universities

Location: San Marcos, CA
System Size: 487.8 kW-DC
Installation Type: Parking Garage Solar PV Carports
Project Specifics: 1,235 SunPower 395W Modules, 2 36kW, 3 50kW & 360kW CPS inverters, Under-Canopy Lighting

This community college solar carport system was installed on a previously constructed parking garage. M Bar C teams strategically navigated structure limitations while still maximizing solar energy production.

Churches & Nonprofits

Location: Vista, CA
Portfolio System Size: 202 kW
Installation Type: Solar Photovoltaic Carports
Project Specifics: Hyundai 350W Modules, 36kW Solectria Inverters, Under-Canopy Lighting

The solar generation from the installed 202 kW solar carports is estimated to reduce the churches' electricity bill costs by 70%. Additionally, these canopies provide necessary shade for the church congregation, staff and students.

Banks & Retail

Location: Escondido, CA
System Size: 27.54 kW-DC
Installation Type: Solar Photovoltaic Carports
Project Specifics: 81 Yingli Solar 340W Modules, 2 Solar Edge 14.4 kW Inverters, Under-Canopy Lighting

This solar carport installation allows the facility to benefit from solar energy while supporting the community's green initiatives and conservation efforts.

Healthcare Facilities

Location: Poway, CA
System Size: 115 kW-DC
Installation Type: Solar Photovoltaic Carports
Project Specifics: 285 Hanwha 390W Modules, 14kW, 20kW & 30kW SolarEdge Inverters, Under-Canopy Lighting

This solar installation reduces facility energy costs, allowing the organization to have additional resources available for providing necessary medical care and support for their patients.

Letter from our President

Jason Ianni & Family

The projects featured within this document exemplify our dedication to high-quality products, safe installation practices, and aesthetically pleasing structure installations. With immense growth since we opened our doors in 1975 as M Bar C Carports, our core values remain: family, integrity, commitment, quality, growth, and leading by example.

It is our honor to join you in building a better future today.

Jason Ianni,
President & CEO
M Bar C Construction

To All Our Partners,

After over four decades in business, M Bar C Construction extends our sincere gratitude to you: our customers, suppliers, and strategic partners, for continuing to make us a world-class contractor. We are committed to meeting you and your project where you are at today but also where you are headed.

With over 750 megawatts of energy installed throughout our history and 5 million square feet of steel structures built and installed per year, we are proud to be meeting the solar and structural needs of our partners from coast to coast.
